Attachment: New Drawing Sheet

REMARKS

The Official Action of May 4, 2005, and the prior art cited and relied upon therein have been carefully studied. The claims in the application remain claims 1-5, and these claims define patentable subject matter warranting their allowance. Favorable reconsideration and such allowance are respectfully urged.

Claims 1-5 remain in the application for consideration.

In response to the Examiner's objection to the drawings and rejection of claims 1-5 under 35 U.S.C. §112, second paragraph, Applicant has enclosed a new Fig. 12 showing respectively the three clutches of the power device in cooperation, and amended the claims to positively claim the vehicle sliding door in cooperation with the claimed power device. The specification has also been amended to describe new Fig. 12. Applicant respectfully submits that this objection and rejection have now been overcome.

Applicant thanks the Examiner for his indication that claims 1-5 would be allowable subject to overcoming his 35 U.S.C. §112 rejection. Applicant having overcome the Examiner's 35 U.S.C. §112 rejection respectfully submits that claims 1-5 are now allowable and that this application is now in condition for allowance.

Acknowledgement by the PTO of the receipt of applicants' papers filed under Section 119 is noted.

The prior art documents made of record and not relied upon have been noted along with the implication that such documents are deemed by the PTO to be insufficiently pertinent to warrant their applications against any of applicant's claims.

Favorable reconsideration and allowance are earnestly solicited.

Respectfully submitted,
